Ms. Monica Khurana

PRINCIPAL

Dear Parents,
This Academic Year began with the uncertainties of the pandemic. The students adjusted very quickly and showed adaptability and resilience throughout the year. There were challenges and setbacks but together we crossed the milestone successfully. Thank you to each member of TMS family for the strong support in such inevitable times. I would like to share how grateful I am to be leading such an endearing fraternity of students, parents and staff. It has been an amazing year! I am so proud of all the achievements and accomplishments of our students.

Reflecting on the past year, we had outstanding memories and exciting events to look back on. The Sports Day, the Annual Function, Farewell Party, Night Out, School Picnic, Talent Fiesta 3.O, different day celebrations and the flow of creative events throughout the year was remarkable. The students enjoyed every day of the year. We shall continue the school traditions and culture in the years to come..

Looking ahead, we have exciting new initiatives planned for the next Academic Year. We are always focussed on the improvement of the school in all aspects. Our goal shall always continue to give holistic development to each child. The new Academic Year will be an enriching one for everyone at TMS.

At TMS, we are fortunate to have a hard-working, caring and dedicated team. The Administrative Department, Facilitators and Support Staff, who collaborate tirelessly and who always go above and beyond to ensure that every student gets the best experience possible. Alongside this, our students deserve recognition for their passion for learning. Thank you for the support and partnership of our fantastic parental community.

“When parents and educators work together, the possibilities for children are endless.”

Let us together create a happy place for our children!“

Life is better
with friends who are true
And friends Like you
Are very few

Either I am happy
Or I am sad
Joy to my day
is what you add

You laugh with me
Cry with me too
Examples of best friends
Is me and you

We have lots of quarrels
But we solve them too
Friends like you
Are very few .

Imaginary Window

Out the window you see,
Animals moving in glee.

Birds roaming around the sky,
Looking for food to survive.

People are out in town,
Walking and looking around.

Plants and trees waving at each other,
Spreading happiness around forever.

This is just our imagination,
But was reality for another generation.

Dasvi : Unlearning and Relearning

Finding this release starring Abhishek Bachchan, Nimrat Kaur and Yami Gautam, with other characters playing their own individual roles in the background plot of Politics, Education and Justice, the movie highlights the shortcomings of the lengthy democracy of our country and its roots in traditions, cultures and power. In the 21st century era, it showcases a fall of an important political leader questioned on his education and his vision of governing his people without the wisdom of an organized literacy structure leading to his shortcomings and mockery amidst the people. The movie shares an insight on the system as a whole with its loopholes yet the importance of values and karma can be seen very evidently as the actor learns about different stories of the prisoners once sentenced for the prison.

Two of the most repeated phrases during the entire movie which leaves a deeper impact in the audience are "A tiger never changes its stripes" & "Itihas se na seekhne wale, khud itihas ho jate hai". The carefully chosen phrases help the audience in understanding the depth of the knowledge and parallel processing going on in a mid 40 year old individual trying to complete his formal education while life has trained him for politics.

The ironical twist in the entire movie is too funny to ignore, the movie is a political comedy, it doesn't shy away from discussing the patriarchal structure in society and the idea of shame and bruised ego instigated by a female cop and protagonists wife. Diplomatic play of words and use of expressions help the audience to share between the lines humor and Wit, typical portrayal of men finding their muse once challenged by women.

Focusing on education, as of 2022, it feels India is yet to free from the challenges of casteism, division and differentiation, which can be removed only when the individuals understand and comprehend history, learn from the shortcomings of learned men and women who rebelled courageously for independence.

While rebellion is an easy form of protest, legends are remembered for their Witt in need of the hour.

The movie lets the audience pick its take away, while the domains of power, authority and law roam around in shades of grey, an individual's choice to bend and unbend is what holds the constitution, policymakers and nation safe.

With educated individuals, we will serve the nation to its truest potential.

Life is a Gift

Before you say an unkind word – think of someone who can't speak.

Before you complain about the taste of your food, think of someone who has nothing to eat.

And when you are tired and complain about your job – think of the unemployed, the disabled and those who wish they had your job.

And when depressing thoughts seem to get you down – put a smile on your face and think : you're alive and still around.

The Little Plant

In the heart of a seed,
Buried deep so deep,
A tiny plant
Lay fast asleep.
''Wake", said the sunshine,
"And creep to the light".
''Wake", said the voice
Of the raindrops bright.
The little plant heard
And it rose to see,
What the wonderful,
Outside world might be.

RAW EMOTIONS

Hope, hope, hope,
in sadness and in glee.

Rage, rage, rage,
In anger and in pain.

I wonder where we go, when things go south? I wonder what we do, when dreams don't come true?

Search, search, search,
in darkness and in light.

Cry, cry, cry,
In solitude or in a crowd.

Laugh, laugh, Laugh,
I wish for it all the time.

Hide, hide, hide,
You do it very well, not a clue but sometimes a ray.

Hope, hope, hope,
In anticipation and in delight.

Hope, hope, hope,
For hours, days and months.

Rage, rage, rage,
Cry a scream, shout and loud.

Not your rage, It's hope I seek...
In colorless days and sleepless nights.

Sigh...sigh...sigh...
Hope it's you finally, it's you.

Parents Testimonials

I want to thank you from the bottom of my heart for taking such wonderful care of my child(Moksh). I was really worried and concerned about his schooling but the way you and your colleagues are taking personal care is really amazing. Whether it is giving hot water or cooking new dal. He was struggling physically and emotionally when we met you but I think your sympathies are healing him. Freedom to dance, to talk is helping him to grow in person.

THANK YOU so much, ma'am.
I would also like to mention Monica ma'am who always gave me the comfort zone to speak about my point of view, and my requirements, and personally, she looked into it. She actually fulfilled her promise of giving our worries by shaking hands personally. Thank you. It means a lot to me.

Thanks and regards,

Being a parent and a professional language and skills instructor has given me an opportunity to interact with various schools and their management over the years.
The millennium school so far has been one which undoubtedly is the most approachable and flexible school that I have ever interacted with. Right from the principal to the teachers to the coordinators who are always ready to listen and work over every and any suggestion you give they all exude a lot of warmth not just to the students but also to the parents as well.
The school makes us feel connected in this journey towards nurturing and honing our children to realize their best potential.
The tiny gestures of warmth like the principal meeting and greeting the students when they come and leave the school and the teachers being available and approachable at literally any time of the day has all turned the millennium school into one big growing happy family!

Thank you, all the teachers, from the bottom of my heart for teaching us in even the hardest times of lockdown! Thank you for being such a great teacher! I'll always remember you with the deepest respect and affection for your efforts in making each lesson enjoyable and educational. I will never forget all the fun activities you included in your class to enhance learning. I especially loved how you always relate the lessons to real-life examples that would allow the material to make more logical sense to students and always give us something to relate to the lesson too. It made it so much easier to recall the material when being tested on it or when we needed it for homework.
