## Our Universe

This month, Junior and Senior KG children explored the fascinating world of space through fun and creative activities. Junior KG children participated in Cosmic Creations, where they imagined and drew their own planets, enhancing creativity and imagination. They also enjoyed a Galaxy Swirl Experiment, mixing food colours in milk and using dish-soap-dipped earbuds to create beautiful galaxy-like patterns, helping them observe colours and simple cause-and-effect. To understand how astronauts reach space, children painted clay rockets, strengthening fine motor skills through hands-on learning. Senior KG children enjoyed a fun and creative Design Your Own Constellation activity. They used their imagination to create unique star patterns. The purpose of this theme was to spark curiosity about the universe while developing creativity, observation skills, and motor coordination in a joyful and engaging way.

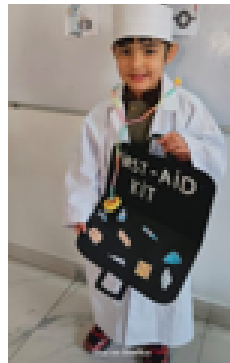

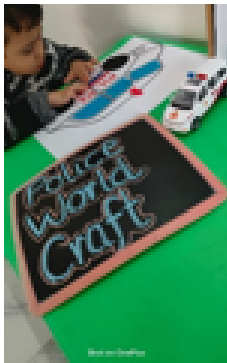

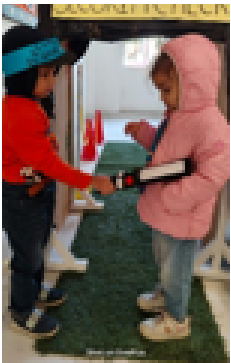

## Community Helpers

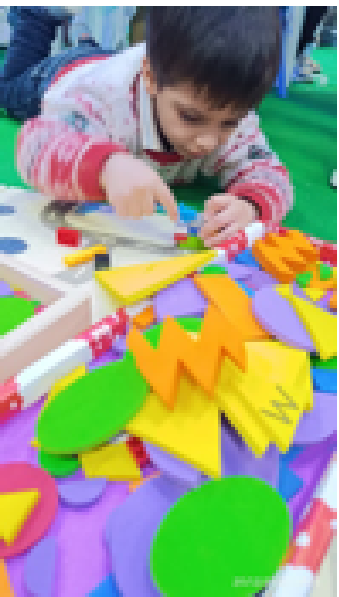

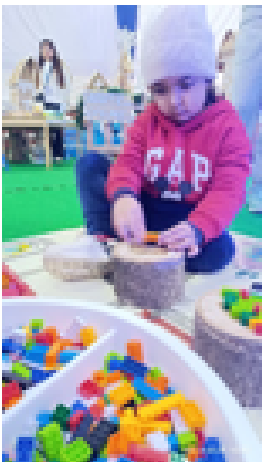

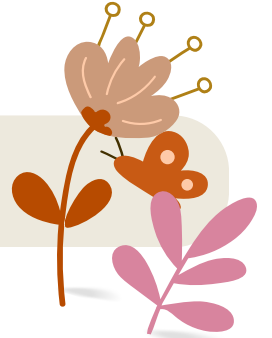

Kids at Apple Blossom had a blast learning about community helpers! 😊 Through fun pretend play activities, they explored roles like doctors, police officers, and teachers, helping them understand and appreciate these important helpers. It was a super engaging way to learn about empathy, teamwork, and the value of different roles in their community! 🌟👍 The little ones got fully immersed in the experience, using pretend stethoscopes and even running a mock classroom setup. It was adorable to see them taking turns and learning from each other. The enthusiasm was contagious, spreading smiles and joy throughout the school. It was a wonderful way to teach kids about the importance of community helpers and the roles they play in our daily lives. 🌈

## Apple Blossom School Unwraps the Magic of the North Pole Lab! 🎄✨

Apple Blossom School Unwraps the Magic of the North Pole Lab! 🎄✨" It was a whirlwind of wonder at DPS School's Christmas Carnival 🎉, where students stepped into the enchanting world of the North Pole Lab ❤️! 🧑‍🎄 Students, parents, and twinkling guests explored a frosty Arctic Village, a Winter Park full of joy rides and an Igloo buzzing with STEM-tastic 🛠️ fun activities. "It was pure, unboxed joy!" 😊 The festive atmosphere was electric, with laughter and excitement filling the air as everyone enjoyed the magical experience. From crafting snowflakes to coding robots in the igloo, the fun was non-stop! 🧑‍🎄❤️ The carnival was a perfect blend of learning, fun, and community spirit, making it an unforgettable celebration for all! ⭐

## Joy of Giving Activity, A Heartfelt Experience

As part of the Joy of Giving initiative, the children of Apple Blossom visited an NGO-run school PHULWARI to share love, happiness, and kindness. The visit was a meaningful learning experience where our young learners understood the true joy of giving and caring for others.

With the generous support of parents, the children carried thoughtfully packed gifts for their little friends at the NGO school. The smiles on the faces of the children while exchanging gifts made the moment truly special and memorable.

The interaction helped nurture values such as empathy, gratitude, and compassion in our children. This beautiful experience reminded everyone that sharing is caring and that even small acts of kindness can bring great happiness.

We sincerely thank our parents for their wholehearted support in making this activity a great success.

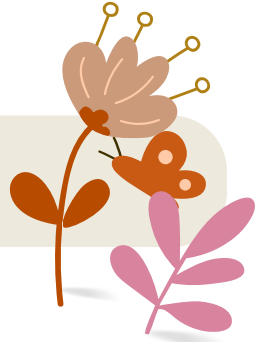

## Christmas sparkled at Apple Blossom!

Kids had a blast exploring the Polar Splash Lab, making music on the Polar Ice Xylophone, analysing Arctic ice, and crafting Snow Land with LEGO bricks. These hands-on activities made learning about the polar regions fun and interactive. The children's enthusiasm and creativity filled the air as they discovered, created, and played. The celebration was a perfect blend of joy, education, and festive cheer, making it an unforgettable experience for all! 😊 The festive vibes were contagious, spreading smiles and happiness throughout the school. It was a day to remember!

## Nursery Lily Assembly! Our Universe Wonders beyond the sky

The students of Nursery Lily presented a delightful special assembly on the theme “Wonders Beyond the Sky – Our Universe.” With great enthusiasm and confidence, the young learners spoke beautifully about the fascinating world beyond our sky, showcasing their curiosity and growing awareness of the universe.

Their elegant and graceful dance performances added a magical charm to the assembly, capturing the imagination of everyone present. Each child participated wholeheartedly, reflecting teamwork, confidence, and creativity. The assembly was both informative and entertaining, leaving the audience inspired and filled with wonder.
