Ms. Monica Khurana
Principal

As we come to the close of another enriching academic year, I find myself reflecting with immense pride and gratitude on the journey we have undertaken together.

This year has been a testament to the spirit of our school—a place where learning goes beyond textbooks and transforms into meaningful experiences. Our classrooms have been vibrant with curiosity, our corridors alive with creativity, and our grounds echoing with the energy of participation and teamwork.

We proudly celebrated this year as the “Year of Leaders,” and it has been truly inspiring to witness our children evolving, embracing responsibilities, and steadily acquiring the skills that will shape them into confident leaders of tomorrow.

At our school, we have consciously nurtured growth across the cognitive, affective, and psychomotor domains. From engaging classroom practices to student-led conferences, from the pride of the investiture ceremony to the powerful expressions in interschool events like Nukkad Natak—each experience has contributed to shaping confident, compassionate, and capable individuals.

What has been most heartening is witnessing our students evolve into voices of change—taking ownership of their learning, expressing their thoughts with confidence, and building meaningful connections with peers and mentors. These are the qualities that will guide them as leaders of tomorrow.

I extend my heartfelt appreciation to our dedicated teachers, who continue to inspire and guide with passion, and to our supportive parents, whose trust and partnership strengthen our vision. Together, we have upheld the essence of a truly child-centric learning environment.

As we conclude this chapter, let us carry forward the learnings, the memories, and the values that define us. The journey continues, and I am confident that the coming year will bring even greater opportunities for growth and excellence.

Wishing all our students a joyful break and a future filled with promise.

Warm regards.

FAREWELL (CLASS XII) *A Chapter Worth Streaming*

Class XII Farewell Ceremony – A Memorable Send-Off

“Every farewell marks the dawn of new beginnings.”

The Class XII Farewell, gracefully conducted by the Class XI students, began with the lighting of the lamp, followed by citations, elegant dances, and a nostalgic TMS journey video. Head Boy Vismay Desai and Head Girl Dhvani Dhandukiya delivered heartfelt speeches. The esteemed and inspiring Principal Ma’am Monica Khurana addressed the gathering, concluding with a vote of thanks by Vice Head Boy Rahil Savani and Vice Head Girl Heer Desai.

“Memories remain long after moments fade.”

REPUBLIC DAY

Patriotism, Culture, & Young Talent on Display

The 77th Republic Day was celebrated in our school with great pride and enthusiasm. The celebration began with the flag hoisting ceremony, filling the atmosphere with patriotism and respect for our nation.

Students presented regional performances representing different states of India, beautifully showcasing their history, culture, and traditions. Their dedication and efforts were truly commendable.

The vibrant performances and joyful participation created a proud and lively atmosphere, making the celebration memorable for everyone.

BLESSING CEREMONY (CLASS X & XII)

A Moment of Blessings & Aspirations

With prayers in our hearts and confidence in our minds, we sent our X & XII students forward with blessings, strength, and success.

Parents were invited to offer their blessings, and this time, grandparents were also specially invited to share their love and wisdom, making the moment even more meaningful with their heartfelt blessings.

THE FUTURE FORWARD FORUM

Guiding Students Towards Informed Choices

TMS, Surat organised The Future Forward Forum, an orientation programme for Class X students and their parents to guide them in making informed stream selection decisions for Senior Secondary years.

The highlight of the event was an insightful panel discussion where experts shared perspectives on stream choices, emerging career opportunities, and the importance of aligning subjects with students' interests and strengths.

Students and parents also engaged in the activity "Vision to Vocation," helping them reflect on interests and explore future career pathways. The session concluded with an expert interaction, offering valuable guidance and clarity about academic choices ahead.

The programme served as a meaningful platform, empowering families to approach academic decisions with confidence and foresight.

NASHA MUKT BHARAT

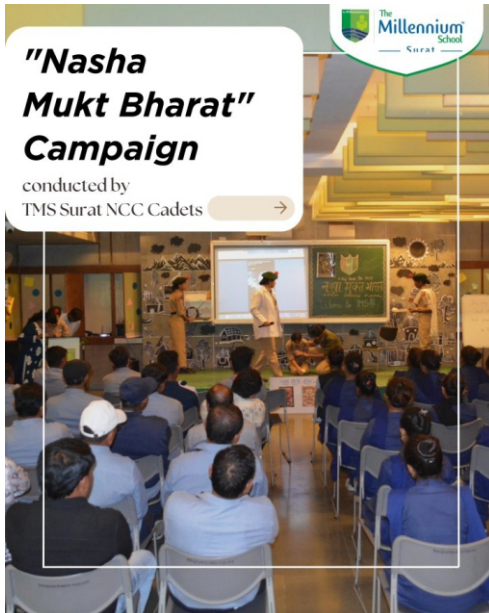

Spreading Awareness for a Healthier Tomorrow

On 10th February 2026, TMS, Surat organized an awareness program under the “Nasha Mukta Bharat” campaign along with a social service initiative.

During the program, our NCC cadets educated school bus drivers and conductors about the harmful effects of substance abuse and the ways to overcome it. A powerful skit was performed to effectively highlight the negative impact of addiction on individuals and society.

The main objective of this initiative was to spread awareness about the dangers of substance abuse and motivate everyone to choose a healthier, addiction-free life.

The program concluded with impactful slogans and a collective pledge, taking a meaningful step towards building a healthier and stronger India — together.

TMS PARIWAR SPORTS DAY

Where Families Play Together

When parents step onto the field, learning goes beyond classrooms! TMS Pariwar Sports Day was all about energy, teamwork, laughter and lifelong memories.

From cricket and football to basketball and chess—our parents played, cheered and inspired! Because at TMS, we grow stronger together.

Voluntary submission of task after being educated about the same by the Facilitator.

Technology used: Notebook LM By Google

Description of the Task: Generate Quiz that contains 10 questions using AI.

Concept experience:

Raghav effectively utilized Google's NotebookLM to complete this voluntary task. The generated quiz shows that he can identify key concepts within a text. His engagement with AI tools shows great promise for his future digital learning journey. Well done on the extra effort!

- **Critical Thinking:** Raghav showed a good eye for detail in selecting which questions the AI produced for his final list.
- **Innovation:** Using an LLM (Large Language Model) to create a self-test is a high-level study strategy.
- **Outcome:** The task successfully met the goal of integrating technology with core curriculum topics.

Evidence:

The screenshot displays the NotebookLM interface. On the left, the 'Sources' panel lists several automotive-related sources, all of which are checked. The central 'Chat' panel shows a document titled 'Pinnacles of Speed: The World's Elite Hypercars' with a summary of the content. On the right, the 'Studio > App' panel shows a quiz titled 'Automotive Quiz' based on 7 sources. The quiz is complete, with a score of 10/10 (100%) and 10 correct answers and 0 wrong answers. The interface also includes options to 'Review Quiz', 'Retake Quiz', 'Good content', and 'Bad content'.

BLESSINGS FROM TEACHERS (EW - RTF) *With Love from Your First Teachers*

Ms. Dhruvi Desai

RTF Facilitator

A New Beginning

My children, as this new year starts,
I send my blessings from the depths of my heart.

May every step you take this year ahead
Be filled with courage, not a trace of dread.

May curiosity light your learning way,
As you discover something new each day.
May books become your lanterns bright,
Guiding your dreams with wisdom and light.

May kindness blossom deep in your soul,
In every small act, in every goal.
Share your laughter, lend a hand,
Together in warmth and friendship stand.

Remember, mistakes are steps that guide
The path where growth and strength reside.
So be fearless, explore, and always believe
In the magic of all you can achieve.

As your teacher, I walk by your side,
With gentle guidance and heartfelt pride.
May this year bring joy, success, and cheer,
With beautiful moments throughout the year.

With blessings, hope, and dreams so bright,
Let us make this journey a joyful flight.
Together we'll learn, grow, and shine—
Making this year truly divine.

Learning Beyond the Classroom

Education is not only about books and exams. It is about discovering who we are, building confidence, and learning how to face challenges with courage.

As we begin this new academic session, I hope every student embraces learning with excitement and enthusiasm. Ask questions, explore new ideas, and never stop being curious.

Respect your teachers, support your friends, and believe in your abilities. With dedication, positivity, and effort, each one of you can achieve wonderful things.

Wishing all students a year full of growth, success, and joyful learning.

A New Step Forward

Dear children, my shining stars,
You've come so very far.
From Grade 2 days of learning and play,
You've grown brighter every day.

With curious minds and hearts so kind,
So many memories we leave behind.
Your laughter filled our class with cheer,
Making every moment special here.

Now Class 3 is waiting for you,
With bigger dreams and things to do.
Keep reading, learning, trying your best,
And always pass every little test.

May you be brave, honest, and wise,
Like bright little stars in the skies.
My blessings and love go with you too,
I'll always be proud of each one of you.

Grow with kindness, shine with pride,
Let curiosity be your guide.
Though you move to a higher grade today,
In my heart you'll always stay.

Ready to Fly Higher

Dear children, my shining stars,
You've truly come so very far.
From Grade 2 days of learning and play,
You've grown brighter in every way.

I still remember the very first day,
When you all looked at me in a curious way.
Slowly, day by day, we became so close,
Sharing laughter, learning, and joy the most.

With curious minds and hearts so kind,
So many sweet memories we leave behind.
Your laughter filled our class with cheer,
Making every moment special here.

Now Class 3 is waiting for you,
With bigger dreams and things to do.
Spread your wings and aim for the sky,
Believe in yourselves and always try.

Grow with kindness, shine with pride,
Let curiosity be your guide.
May you follow the values and lessons we share,
And carry them with love and care.

My blessings and love go with you too,
I'll always be proud of each one of you.
Though you move to a higher grade today,
In my heart you will always stay.

A blessed year to remember

A year full of smiles and fun....
laughter, learning, all in one,
so many memories we made each day,
Everyone grew in their own way.

But now it's time to turn the page...
hop on to the next stage,
with a brand new class and friends so bright,
We hope you enjoy this amazing flight.

We'll miss you and the moments we made,
the lessons we learnt and the games we played,
dream big and reach high,
and very soon you'll touch the sky...

*He who knows not and knows not that he knows not is a fool — shun him.
He who knows not and knows that he knows not is asleep — wake him.
He who knows and knows not that he knows is a child — teach him.
He who knows and knows that he knows is wise — follow him.*

These timeless lines remind us that learning begins with humility — by accepting that there is always more to know and discover. As students, it is natural that you are still exploring your abilities and understanding the world around you. This stage of life is meant for learning, questioning, and growing.

My dear children, you may not always realize the immense potential within you, but with curiosity and hard work, you can discover new horizons and achieve your dreams. Believe in yourself and never stop learning.

At the same time, remember that education is not only about knowledge and success. It is also about becoming a better human being. Be kind to others, show empathy towards people and your surroundings, and always choose to do good deeds.

Work hard, dream big, and let your actions reflect honesty, compassion, and respect. May the coming academic year bring you wisdom, confidence, and many opportunities to grow.

My blessings are always with you — strive not only to be successful students, but also thoughtful, responsible, and kind human beings.

Dear Children,

As this academic year comes to a close, may your curiosity grow like numbers that keep counting higher and higher. May you keep learning, helping each other, and believing in yourself.

Let me share with you a story- '**The Little Number That Made a Big Difference**'

In a cheerful classroom, the numbers from 1 to 10 lived on a bright learning chart. Every day the children counted them, wrote them, and used them in sums.

One day, Number 1 felt a little sad.

"I am just one," it said quietly. "Everyone waits for bigger numbers like 9 and 10. What difference can I make?"

Just then Number 0 rolled beside it and smiled.

"Stand next to me," said 0.

When 1 stood beside 0, they became 10!

Soon other numbers joined. 1 and 2 became 12, 1 and 5 became 15. Suddenly, the little number realised something important.

*One small step, one bright start,
Little efforts play a part.
Join your hands, believe, and see,
Together we make history.*

And just like that little number, every child in the classroom discovered that their small efforts....one page, one idea, one good deed can create something wonderful.

*"Every big success begins with one small step."
Just take your first step..!*

Navrasa – The Colours of Our Emotions

हर एक इंसान एक कलाकार है।
कुछ लोग नवरस को मंच पर अभिनय के रूप में दिखाते हैं,
और कुछ लोग उन्हें अपनी असली ज़िंदगी में जीते हैं।
मंच पर कलाकार तालियों के लिए भाव दिखाता है,
और जीवन में इंसान अपने दिल की सच्चाई से उन्हें महसूस करता है।

In Indian art and storytelling, there is a beautiful idea called **Navrasa**. The word Nav means nine and Rasa means emotions or feelings. According to the ancient book **Natya Shastra** written by **Bharata Muni**, human beings experience **nine important emotions**. These are love, laughter, sadness, anger, courage, fear, disgust, wonder, and peace.

Just like a rainbow has many colours, our hearts also have many emotions. Sometimes we feel happy and laugh with our friends. Sometimes we feel sad when something doesn't go our way. At times we feel angry, scared, surprised, or brave. All these emotions are natural and make us human.

Children should remember that **no emotion is wrong**. It is okay to feel sad, it is okay to feel scared, and it is also okay to feel angry sometimes. What is important is that we **express our emotions in a healthy and kind way**. When we talk about our feelings with our parents, teachers, or friends, our hearts feel lighter and stronger.

So never hide your emotions inside your heart. **Feel them, understand them, and express them**. When you accept all your emotions, you learn more about yourself and grow into a confident and kind person.

Because just like Navrasa teaches us — **every emotion is a beautiful part of life**.

The Adventure Ends... But the Journey Goes On

Dear students, the year is through,
What a lovely journey we had with you.
With laughter, learning, work, and play,

You brightened each and every day.
The treasure you earned is more than grades,
It's courage and friendships the year has made.
It's trying again when things felt tough,

And discovering that you are strong enough.
Each challenge faced, each lesson learned,
Was another step in the growth you earned.
Your kindness, effort, and curious mind
Made our classroom one of a kind.

Now this chapter slowly comes to an end,
But new adventures are just around the bend.
New dreams to follow, new goals to see,
And wonderful places you're meant to be.
So rest, have fun, enjoy your break,

There are many memories still to make.
Keep smiling bright, keep learning strong,
Your amazing story goes on and on.

The Little Kite That Flew Higher

One bright morning, a group of colorful kites were flying together in the same sky. They had spent many wonderful days in the same field, learning how to catch the wind, how to stay balanced, and how to rise again whenever they fell. They laughed, played, and helped each other fly better.

In many ways, these kites are just like you, our dear students. This classroom has been your field where you learned new things, shared smiles, helped your friends, and grew stronger every day.

Among the kites was a little kite named Spark. At first, Spark felt a little nervous. "What if the wind becomes stronger when I go higher?" Spark wondered.

But one day, the Wind whispered, "You have learned so much. It is time for you to fly higher."

Spark looked down and saw all the other kites cheering with bright smiles. With courage and confidence, Spark slowly rose higher into the sky. The wind was stronger, the sky was bigger, and new adventures were waiting.

Just like Spark, you are also ready to fly higher. As you move forward to the next academic year, new teachers, new lessons, and new experiences will be waiting for you.

Remember, this class has been your starting field where you learned, grew, and made beautiful memories together. Even when you fly to new skies, the friendship, values, and joyful moments you shared here will always stay with you.

So keep moving forward with the same smile, confidence, and energy, and never stop believing in yourself. The sky ahead of you is full of endless opportunities.

We wish you all the very best for the coming academic year. May you continue to learn, grow, and shine brightly wherever you go.

As this academic session comes to an end, I want you to know how proud we are of each one of you. This year was not just about lessons, books, and exams—it was about growing, learning, laughing, and sometimes even being a little mischievous.

You have been a class full of hardworking minds, curious questions, bright ideas, and unforgettable energy. Your intelligence, reliability, and those little naughty moments made our classroom lively and special. Every one of you has added something unique to this journey.

Remember, marks may measure a test, but your character, effort, kindness, and courage will shape your life. Keep asking questions, keep working hard, and never be afraid to try again when things feel difficult.

As you move forward, carry your confidence, your values, and your dreams with pride. The world needs thoughtful, brave, and compassionate people—and I believe you can be exactly that.

No matter where life takes you, a small part of this classroom and your teacher's blessings will always go with you.

Keep learning. Keep shining. Keep being wonderfully you.

A Benediction for Young Minds

When first this gentle year began,
Like dawn across a quiet span.
Your eager eyes, your hopeful grace,
Brought warmth and wonder to this place.

With questions bright as morning dew,
With restless dreams that slowly grew.
You filled these days with thoughtful art,
Each curious mind, a glowing spark.

Through lessons learned and laughter
shared,
Through trials faced and courage dared.
Each page you turned, each step you tried,
Let strength and wisdom grow inside.

As 'William Wordsworth' once wrote in 'My
Heart Leaps Up', "The Child is father of the
Man,"

Within your hearts great futures span.
For every thought and choice today,
Shapes brighter paths along your way.

And when two roads appear ahead,
Recall what 'Robert Frost' gently said in
'The Road Not Taken',
Walk on with courage, calm and wise,
Let hope and purpose be your skies.

Now as this cherished year takes flight,
Like twilight fading into night.
Another dawn begins anew,
With wiser minds and dreams in view.

So carry forward all you've grown,
The seeds of kindness you have sown.
Our blessings, soft as morning light,
Shall guide your hearts in learning's flight.

“નવા સપનાઓની ઉડાન”

“નાની પાંખ હોવા છતાં પક્ષી આકાશને અડે છે;
એમ જ નાના પગલાંથી વિદ્યાર્થી પોતાના મોટા સપનાઓ સુધી પહોંચે છે.”

સવાર પડે ને પક્ષી ગાય, મીઠું મીઠું ગીત સંભળાય,
નાની પાંખથી ઉડવાનું શીખે, નવા સપનાની રાહ બતાવે.

કહે છે – બાળકો ડરશો નહીં, મહેનતથી સફળતા મળશે ખરી,
દરરોજ થોડું આગળ વધતા જાવો, જ્ઞાનનો દીપ સદા પ્રગટાવતા જાવો,

જેમ હું રોજ આકાશે ઉડું છું, નવું નવું વિશ્વ હું જોવું છું.
એમ તમે પણ ભણતા જાવ, તમારા સપના સાચા બનાવતા જાવો.

નવું વર્ષ નવી ઉડાન લાવે, મહેનત જ તમને આગળ ધપાવે.
પક્ષીનું ગીત એ જ કહે છે, મહેનત કરો, સફળતા હંમેશા પ્રાપ્ત થશે.

The Winning Year Ahead

A brand new year, a fresh new start,
With a curious mind and hopeful heart.
Like athletes ready on the field,
With strength, with courage as our shield.

The classroom is our training ground,
Where knowledge, skills, and dreams are found.
Each lesson learned, each question tried,
It is like a goal we reach with pride.

Some days we win, some days we fall,
But effort matters most of all.
Just like in sports we rise again,
And practice hard through loss and gain.

With teamwork strong, we help and share,
We learn to listen, learn to care.
Like passing balls from hand to hand,
Together we grow, together we stand.

So run this race with joy and cheer,
Give your best throughout the year.
With books and sports side by side,
Let learning be your winning stride.

Welcome students, brave and bright,

The Joy of an Organized Cupboard

*"A place for everything, everything in place,
Brings a smile upon our face.
When clutter goes and order stays,
Peace and happiness fill our days."*

My Shining Stars,

Have you ever noticed how wonderful it feels when your cupboard is neat and well-arranged? When books are stacked properly, clothes are folded nicely, and every little thing is kept in its place, the cupboard looks bright and welcoming.

Removing clutter is like making space for freshness and happiness. When we clear away things we do not need and organize the things we use, we learn the beautiful habit of being careful and responsible.

A tidy cupboard also saves time. We do not have to search for our notebooks, pencils, or favourite storybooks again and again. Everything waits for us patiently in its proper place.

But more than that, organizing our cupboard teaches us an important life lesson — when our surroundings are orderly, our thoughts also become calm and clear.

So my dear children, let every small act of tidiness become a step toward a brighter and more disciplined life. When you learn to care for your little cupboard, you also learn to care for your thoughts, your habits, and your future. May your lives always be filled with order, happiness, and beautiful values. My endearing blessings are always with you as you grow into kind, responsible, and wonderful human beings.

The Student Who Teaches Themselves

Every classroom holds many kinds of students.

Some listen carefully.
Some ask questions.
Some quietly finish their work and move ahead.

But among them is a rarer learner
the student who slowly learns how to teach themselves.

When the lesson ends, their thinking continues.
When the chapter closes, their curiosity stays awake.
They search for the **why** behind the **what**.

Yet the finest education is not measured only by a sharp mind.

It is also seen in the grace with which one listens,
the patience with which one disagrees,
and the quiet courtesy that allows every voice in the room its dignity.

A truly thoughtful student understands that knowledge grows best in an atmosphere where minds are valued, differences are respected, and no question is treated lightly.

Teachers may open doors and books may offer directions,
but the most remarkable learners discover two enduring strengths
the courage to think independently and the humility to honour the minds around them.

So as this new academic year begins,
may your curiosity remain restless,
your conduct remain gracious,
and your learning continue long after the bell rings.

Because the greatest student is not the one who knows the most answers
but the one who **never stops learning while quietly making the classroom a better place for every mind within it.**

Footsteps Today, Horizons Tomorrow

Dear Students,

The classroom hummed with curious
sound,
Where little seekers gathered round.
With thoughtful eyes and voices clear,
You brightened every moment here.

Your cheerful "Good mornings" day by day,
Brought sunshine in the warmest way.
Those smiling greetings, kind and true,
Made every morning brighter too.

Numbers danced upon the board,
Little thinkers searched and explored.
With every sum and problem tried,
Your growing confidence shone with pride.

Words unfolded line by line,
Stories bloomed in hearts like thine.
Through every sentence read and said,
New worlds of language gently spread.

Brave attempts and patient tries
Turn small efforts into prizes.
Step by step your minds explored
Every lesson is set before.

Beyond these doors new halls await,
With wider paths and dreams more great.
May courage guide each choice you make,
And wisdom grows with every step you
take.

Let kindness travel where you go,
Like quiet rivers that gently flow.
For gentle hearts and helping hands
Build brighter worlds and kinder lands.

So onward now, with spirits strong,
Your journey stretches wide and long.
Carry your spark, let it shine afar,
Every child is a rising star.

In every step your talents show.
Your curious minds, your eager cheer,
Made every single day this year.

Your questions sparked a shining light,
Your effort turned hard work into flight.
With smiles that filled the classroom air,
You showed the world how much you care.

Your positive hearts, your will to try,
Have helped your confidence reach the sky.
No challenge seemed too big to face,
You met them all with strength and grace.

Thank you for being bright and kind,
For open hearts and thoughtful minds.
For every laugh, for every cheer,
You made our classroom shine this year.

As you step on to the next great stage,
Write your story page by page.
Keep learning, dreaming, strong and true,
The world has wonderful plans for you.

Remember always as you depart,
You leave with knowledge

tis what the greats say
My roam takes me to my Rome
My weight takes me to my roam
the weight I picked from yesterday
which is no fuel or sail
or fuel I pick today
not making my next today hefty
will ordain I reach if I reach Rome
or take where I reach as Rome.*

Thence everyone's Rome is varied.

मृत्योर्मा अमृतं गमय॥”

(Lead us from ignorance to truth, from darkness to light.)

Dear Architects of Future,

With this timeless, meaningful, and wonderful prayer, I joyfully and wholeheartedly welcome and shower my choicest wishes on my dearest Future Shapers for the academic year 2026–27. Like nature that sheds its old leaves to bloom again, every new session brings fresh hopes and endless possibilities. The setting sun reminds us that every ending carries the promise of a new beginning. May these approaching days inspire curious minds, courageous hearts, and compassionate souls to learn, explore, and grow. Step forward with confidence—your journey to shine begins here...

Best wishes...

PGT Psychology Health & Well Being Officer

Dear Students,

Sometimes growth is quiet.

It happens the moment you try again after something did not go well.

It happens when you gather the courage to ask a question.

It happens when you show kindness to someone who needs it.

It happens when you refuse to give up on yourself.

These small moments may seem ordinary, but together they create something powerful: confidence, resilience, and strength.

Trust your journey. Even when progress feels slow, you are growing in ways you may not yet see.

Dear Young Visionaries,
Step into these halls with hope in your hearts and dreams sparkling in your eyes.
Let curiosity lift you, and passion guide your every step.
Each challenge you face is a spark, each effort a quiet triumph
Shaping the courage and wisdom that will carry you forward.
Embrace learning, explore with wonder, create with courage, and always believe in yourself.
The world is ready to be illuminated by your brilliance.
Your journey ahead is vast, full of promise
Walk boldly, dream deeply, and make every moment unforgettable.

PGT History

Dear Students.
Wish you all the best for the new journey that you are going to embark upon. Definitely, this one is going to be a rollercoaster ride-filled with ups and downs, new experiences, and several challenges along the way.
However, with determination, consistency, and the right attitude, every obstacle will turn into an opportunity to learn and grow. Do not be afraid to ask questions, make mistakes, or try new things—because that is how real learning happens.

“All our dreams
can come true if
we have the courage
to pursue them.”
